Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage

Phase of Journey	Stage 1 Loan Application	Stage 2 Loan Eligibility Prediction	Stage 3 Decision & Result
Actions What does the customer do?	- Visits the Smart Lender web application. - Enters personal and financial details. - Reviews the entered information before submission.	- Submits the application. - Waits while the system analyzes the data. - Receives the loan eligibility prediction.	- Views loan approval/rejection result. - Reviews the prediction details. - Decides the next course of action.
Touchpoint What part of the service do they interact with?	- Smart Lender Web Application - Loan Application Form - User Interface	- Prediction Engine - Machine Learning Model (XGBoost) - FastAPI Backend	- Result Dashboard - Prediction Summary - Recommendation Screen
Customer Thought What is the customer thinking?	- Am I eligible for the loan? - Have I entered all details correctly? - Will my application be accepted?	- Is my credit history sufficient? - Will my income support the requested loan? - How accurate is the prediction?	- Why was my loan approved or rejected? - Can I improve my eligibility? - What should I do next?
Customer Feeling What is the customer feeling?	- Curious - Hopeful - Slightly Anxious	- Curious - Excited - Concerned	- Satisfied (if approved) - Disappointed (if rejected) - Motivated to improve financial profile
Process Ownership Who is in the lead on this?	- Loan Applicant - Smart Lender Web Application	- FastAPI Backend - Machine Learning Prediction Model	- Smart Lender System - Financial Institution / Bank
Opportunities How can we improve this stage?	- Provide an easy-to-use interface. - Validate user inputs in real time. - Offer clear guidance for each input field.	- Improve prediction accuracy. - Reduce response time. - Provide confidence score with prediction.	- Explain the prediction result. - Suggest ways to improve eligibility. - Provide recommendations for future applications.
